Introduction

Shenzhen Boshiho leather Co., Ltd, founded in July, 2003, which is professional in producing, processing and selling leather items as well as some related products. The main ones include wallets, bags, covers and cases for electronic items, etc. Boshiho specializes in providing services for large enterprise purchasers, wholesalers and sellers on Amazon, eBay or other platforms.

The factory of Boshiho is located in Shatian town, Dongguan, Guangdong province. With excellent products designers and skillful sampling masters, our factory can offer the most suitable designing scheme according to customers' ideas or thoughts, and then turn the scheme into real samples very fast. After sampling, our factory veteran workers are able to finish the mass production, same high quality as the sample, with the shortest time. And during the whole production, our QC Department will supervise the quality to make sure it meets the international standards like ISO; then the packaging team will stick SKU barcodes as per customers' requests, and ship them to the appointed warehouse.

The company has established two independent brands, Boshiho and CorkAllin, one modern management team and three excellent sales

teams. With these, we are capable of maintaining good relationship, timely interaction and communication with clients from all over the world. As we've been in leather items industry for about 15 years, we always provide our customers with the latest information about the markets and products. Also, our professional services always make sure that all after-sale issues can be handled well, such as shipping problems, FBA shipments and complaints on E-commerce platforms, etc. In addition, it has been a pleasure for us to help our customers solve their problems here in China. The establishment of cooperation with us means maximize your profits and bring us win-win.

Boshiho, a modern company with full innovation capability, also specializes in cork-related products. CorkAllin product series are made from eco-friendly materials which have passed the California 65 tests and met the European environmental standards. We can design according to customers' requirements. As the first manufacturer of cork material items in China, we are the pioneer and now we are still the best. Meanwhile, we are the first domestic supplier who developed and applied RFID blocking, carbon fiber materials to leather products. And the wireless charging wallet developed by us, unique in the industry so far, has been popular in the markets of Europe, Asia, Africa and South America.

Welcome to visit us! Looking forward to establishing business relationship with you!
